AUDIENCE EXPERIENCE

“ Dr. Bose’s presentation received a rousing standing ovation and rave reviews!”

Maureen Freda Peterson, AOTA
Chief Professional Affairs Officer

“ The way Dr. Bose started out the presentation really caught our attention! He used foam grenades, a smoke machine, videos and even shocked a mannequin which kept us engaged and entertained. We learned a lot and his lessons were great!”

Melissa Hopkins, Washington Times
Executive Producer

“ Dr. Bose is a very talented and gifted speaker. His points of discussion are ones that are very necessary in today's age and society.”

John Alvarez, Odessa Fire & Rescue
Chief

“ You were an incredible speaker, and it was an honor to have you share your powerful story about the ironies of freedom.”

Jennifer Klink, Northwestern University
Associate Director, Reunion

“ The way that he was able to engage with the audience and bring his real world experiences to the room was outstanding. The other thing he does is he takes information and really simplifies it down so that the audience can really understand and take away something from his talk. You get that firsthand experience right then and there combined with what’s actually happening on the inside of your body. It’s unlike anything I’ve ever seen.”
