

“ My mission is to use my battle-tested experience to help others lead lives of impact, service, and health.”

Dr. Bose is a world-leading emergency medicine physician, combat veteran, professor, and entrepreneur. From his experiences in the ER and on the battlefield, he is skilled in staying grounded in the face of overwhelm and tackling any challenge with skill and agility.

PHYSICIAN

Dr. Bose is one of America’s most experienced doctors in emergency medicine, mass casualty and disaster response, and PTSD. He is driven to stay at the forefront of his specialty, achieving advanced certification from the Department of Homeland Security in federal, state, and local disaster response protocol, and presenting at the 2019 United Nations General Assembly on emergency medical services and disaster care. Dr. Bose has logged over 1000 media appearances as a health correspondent, including features in CNN, MSNBC, CBS News, Fox, Time Magazine, and more. He currently serves as Medical Director for the city of Odessa, Texas.

- HIGHLIGHTS**
- Selected by the International Association of Healthcare Professionals to represent emergency medicine in “The Leading Physicians of the World”
 - Featured in “Guide to America’s Top Emergency Medicine Physicians” annually since 2006
 - Recognized by the American College of Emergency Physicians as one of “America’s Health Care Leaders” and “Heroes of Emergency Medicine” of the last 40 years
 - Co-hosted the weekly CBS “Your Eye on Health” segment which discussed medical and personal health issues

VETERAN

A former major in the U.S. Army, Dr. Bose is a proud Iraq war veteran with twelve years of service. During Operation Iraqi Freedom, Dr. Bose cared for thousands of wounded soldiers and Iraqi civilians and provided front line emergency care during the peak of insurgencies in Baghdad and Najaf. In these circumstances, Dr. Bose refined his ability to motivate teams and manage crises. Because he often lacked traditional resources and time, he also learned to quickly develop creative solutions to challenges. Dr. Bose is also the founder of The Battle Continues, a nonprofit charity advocating for the health needs of veterans.

- HIGHLIGHTS**
- Selected by U.S. forces to treat Saddam Hussein after his capture
 - Received the Bronze Star Medal for completing one of the longest combat tours by a physician since World War II and serving as one of the sole frontline physicians in the Second Battle of Fallujah
 - Combat Medical Badge recipient, for participating in combat operations under enemy hostile fire
 - Received Presidential Recognition and featured as a “CNN Hero” for practice under extraordinary circumstances

PROFESSOR

Dr. Bose is passionate about training the next generation of medical professionals. He is currently a clinical professor at Texas Tech University Health Sciences Center, an associate professor at University of Illinois and has held faculty positions at University of Texas and Texas A&M. In this role, he must stay at the forefront of medical breakthroughs and communicate difficult concepts in a way others can understand and apply.

HIGHLIGHTS

- Authored over 50 publications including High Yield Emergency Medicine, which was later accepted into the Library of Congress as a leading medical textbook and now considered a standard text in the field
- Dr. Bose also lectures nationally on leadership lessons learned as a battalion surgeon in Iraq, including a keynote lecture with former President Barack Obama in 2006
- Received the 2007 National Faculty Teaching Award, the industry's highest teaching award
- Routinely travels across the country to teach his proprietary Emergency Medicine Written Board Examination review curriculum, leading two medical centers to achieve #1 scores in the nation among 140 residency program

FOUNDER

Dr. Bose is the Founder & CEO of several nationally top-ranked medical education companies, focused on increasing healthcare knowledge and agency. Dr. Bose was involved in all aspects of developing and executing the business model and marketing plan for each company, giving him practical business skills. His companies reached profitability in the first year and participant examination scores and patient health improved.

HIGHLIGHTS

- Co-founded and serves as Chief Medical Officer of liveClinic.com, the world's first and fastest growing platform to store personal health records
- Developed several online training courses to help doctors and nurses pass their board examinations, training over 1 million physicians and medical leaders
- Former contributor on Business Insider
